

To all our Juice clients and friends!

At Juice Film, some things will never change, and we are always ready to embrace the challenges set before us, even those we find ourselves living through during this worldwide pandemic.

FILMING DURING COVID-19:

- Production is our passion, and we are 100% committed to the creative process.
- When you want to make the impossible possible, we will offer creative solutions, but we will always tell you when something is really impossible!
- We believe that every project, no matter how big or small, deserves a fresh approach and our complete dedication.
- We are committed to maintaining a healthy and safe working environment, both in our office and our sets.
- We acknowledge our social responsibility and remain diligent to create best working practices.
- We aim to continue to inspire confidence within our industry, with our local film offices and government officials, our suppliers and of course our clients.
- We are here to be your partner every step of the way

INDIVIDUAL RESPONSIBILITY:

Practice proper hand hygiene.

Cough and sneeze into your elbow or a tissue. Throw it away into a bin and wash your hands.

Frequently clean used surfaces, clothes and objects.

Ensure appropriate ventilation.

Keep your distance and ask others to be considerate.

SAFETY ON SET:

Juice Film is an integral part of the task team which has been established to collate the Commercial Producers Association (CPA) Covid protocol document. This has formed the basis for returning to shoot under risk assessment level 4.

The CPA Covid protocol continue to be updated as we move to lower risk assessment levels – South Africa are currently at level 1.

We understand that with the uncertain and changing current state of affairs, we cannot always know 100% where this is going to take us.

What we do know is that we are committed to being as ready as we can be and support you and the production process every step of the way.

Thank you for taking the time to read this.
Take care, be healthy and stay safe!

Martin, Carmen and The Juice Film Team
